

GEOSPATIAL PROGRAM

**When accuracy is your job,
you need the best.**

Whether you're building roads, surveying a stockpile, establishing property lines, or just getting the lay of the land, the right survey tools and supplies play a critical role. That's why you and your staff expect your equipment to pull its weight. Whether you're adding to your arsenal, replacing aging tools, or starting from the basics, the Geospatial Program offers a full suite of products at optimal pricing.

HOW IT WORKS

1. Determine what equipment you need.
2. Contact one of the program's approved suppliers, requesting program pricing.
3. Confirm your purchase.

PROGRAM BENEFITS

- ◆ Vast catalogue of geospatial measurement and survey equipment
- ◆ Reduced cost
- ◆ Fully compliant with the CFTA, NWPTA, CETA, and APA.
- ◆ Tendering process already completed on your behalf
- ◆ Choice of approved suppliers
